DC Motors

5 Year Warranty

MD and CD Series

Our DC Motors Last! And we back up that claim.

GE direct current motors are legendary in the industry for their durability, reliability, and longevity!

We have over 100 years of experience of direct current motor engineering and manufacturing utilizing superior design and quality control systems. These machines are a proven reliable lifeline to driven equipment and the backbone of thousands of operations around the world.

- They are constructed in a rugged magnetic ring frame for severe industrial duty applications.
- They feature anti friction bearings with removable bearing cartridges and caps.
- Fully compliant class F insulation (CD) and class H insulation (MD).
- Strong Tungsten Inert Gas (TIG) welded commutator risers to the armature coil.
- Tape Reinforced Encapsulated Construction (TREC) of main field coils and commutating field coils is a process which strengthens, seals, and bonds the coil and pole into a single unit highly resistant to contaminants.

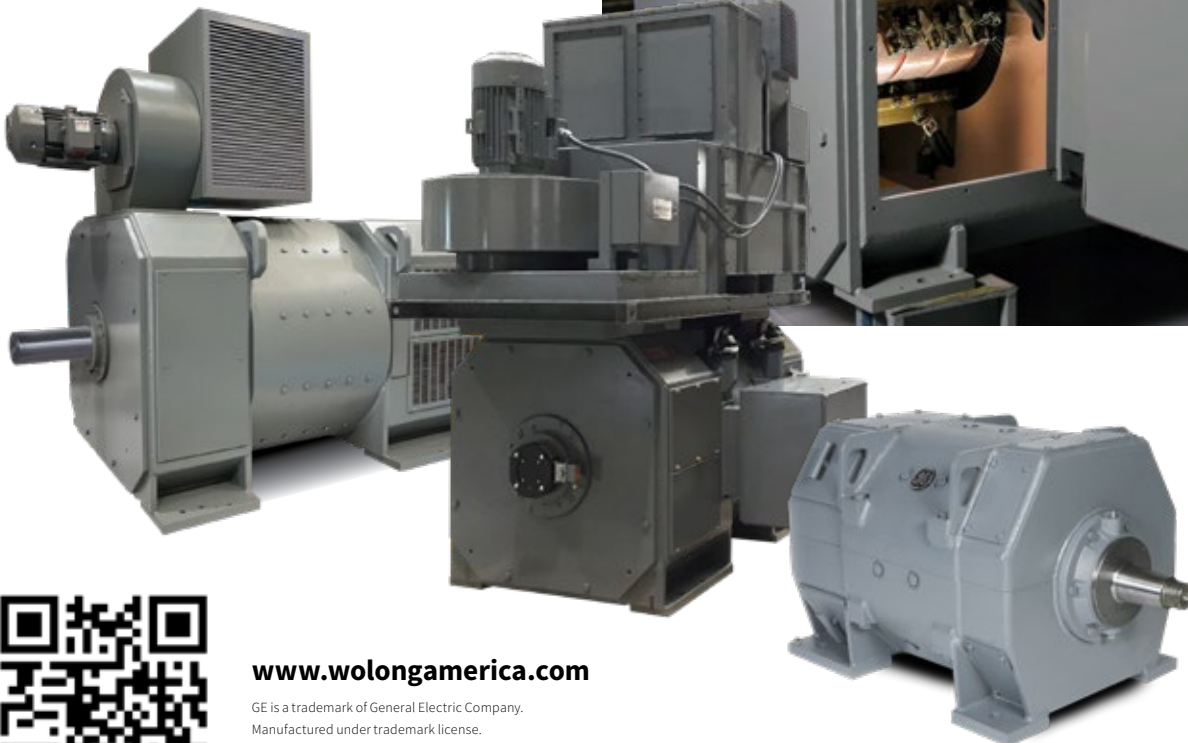

As of July, 2024 Wolong is offering a 5 year manufacturer's warranty on these GE direct current motor models:

Mill-Duty Series
MD600Z, MD800

CD Series
CD6000, CD8000, CD9000,
and MCF Generators

The warranty is valid for the period of 54 months from the date of installation or 60 months from the date of manufacture, whichever comes first, guaranteeing to the Buyer that the provided product will be free from defects in material, workmanship, and title. For more information, please contact your Wolong representative.
